Re: U89SDB680UW01 Certification: Extended Frequency Justification.

Dear Sir/ Madam,

Simoco EMEA Ltd would like to submit the following justification to show the frequency range as 440 – 512 MHz on the Grant of Equipment Authorization for U89SDB680UW01 equipment.

This frequency range is applicable to the Federal Government and FCC Part 90 radiocommunication systems that include public agencies, emergency services, commercial, business and industrial services. This equipment will be marketed to the users listed in these services that account for the majority of radiocommunication operations on this band (refer to the list below).

Frequency:	Application:	Grant Notes
440 – 454	Part 90	EF
454 – 456	Other	EF
456 – 462.5375	Part 90	EF
462.5375 – 462.7375	Other	EF
462.7375 – 467.5375	Part 90	EF
467.5375 – 467.7375	Other	EF
467.7375 – 512	Part 90	EF

Also the frequency of operation of the U89SDB680UW01 base station cannot be programmed by the operator to transmit on frequencies other than those programmed by service or maintenance personnel. Programmed operating frequencies shall be in strict accordance with the above listed frequencies and the user's FCC license conditions. From the FCC KDB634187 guide, as an alternative to listing the exact frequencies, we acknowledge that FCC rules would be violated if the U89SDB680UW01 equipment were programmed and operated on unauthorized frequencies.

Yours sincerely,

Simoco EMEA Ltd
